

Failtadoo - v12 Features and The Great ripoff story

A big failure in staying true to thier words, failtadoo

v12 is here and so as the great rip off release of community efforts.

Yes !

Just simple bunch of rip offs from community's efforts going to enterprise.

Features REMOVED from Community

1. Stock Tracablity Report, now trace where things went

<https://github.com/odoo/odoo/commit/5fcbc116f1262db8ba9ab02cecdf7dd58508da6c>

2. Stock Quanty Tracablity Report, just keep tracing where it went

<https://github.com/odoo/odoo/commit/53ac302eabb1e6bd77734334e1dc7e0c367af3a5>

3.Accounting Reports, Are they really deprecated? Since When ?

<https://github.com/odoo/odoo/commit/e51b4f659fc5e4253d3156754ada21166c8d1bf8>

4. Accounting Budget. now you need budget to have it

<https://github.com/odoo/odoo/commit/2870af948e237e557f39287929e1a30de2c25730>

5. Accounting Assets, Community just lost a big Asset

<https://github.com/odoo/odoo/commit/2e63ead842a0d2ccd3a78e9453e6d224650b8790>

Feature Introduced via Rip Off (Oh, They call it R&D)

1. Multi Website - Created first by community at -

App : https://www.odoo.com/apps/modules/11.0/website_multi_company/

Source : <https://github.com/it-projects-llc/website-addons>

2. Product Configurator - Community effort which raised 25,000 Euro to create an open source solution -

App : https://www.odoo.com/apps/modules/10.0/product_configurator/

Source : <https://github.com/pledra/odoo-product-configurator>

3. Email Tracking - OCA addon that does the same since 2 years -

App : https://www.odoo.com/apps/modules/11.0/mail_tracking/

Source : <https://github.com/OCA/social>

4. Email Digest - One more OCA first app -

App : https://www.odoo.com/apps/modules/11.0/mail_digest/

Source : <https://github.com/OCA/social>

5. Password Policy - Available since long in Odoo Community -

App : https://www.odoo.com/apps/modules/11.0/password_security/

Source : <https://github.com/OCA/server-auth>

6. Document management system (DMS) - Very well created DMS by a community member -

App : https://www.odoo.com/apps/modules/11.0/muk_dms/

Source : https://github.com/muk-it/muk_dms

7. IoT Box - New initiative by OCA, Instant copy paste in v12 -

App : <https://www.odoo.com/apps/modules/11.0/iot/>

Source : <https://github.com/oca/iot>

8. OCR - Couple of year old community app -

App : https://www.odoo.com/apps/modules/10.0/tko_document_ocr/

Source : <https://github.com/thinkopensolutions/tko-addons>

9. Keyboard Shortcuts and Accessibility - Almost 2 year old effort by community member -

App : https://www.odoo.com/apps/modules/9.0/wct_keyboard_shortcuts/

Source : https://github.com/Whitecapetech/wct_addons

10. RTL Language Support - Around 4 year old effort from a community member -

App : https://www.odoo.com/apps/modules/11.0/web_rtl/

Source : <https://github.com/barsi/odoo-rtl>

11. Payment Acquirer Alipay - Available since v10 from a community -

App : https://www.odoo.com/apps/modules/10.0/payment_alibaba/

Source : <https://github.com/OdooMod/odoo-addons>

12. Better Financial Reports - More efficient and configurable alternative available by community -

App : https://www.odoo.com/apps/modules/11.0/mis_builder/

Source : <https://github.com/OCA/mis-builder>

13. Online Signature - Again a rip off from a community effort (Jay Ho) !!!-

App : https://www.odoo.com/apps/modules/11.0/web_digital_sign/

Source : https://github.com/JayVora-SerpentCS/SerpentCS_Contributions

14. Product Put away Strategy - Ahhh... One more OCA rip off -

App : https://www.odoo.com/apps/modules/11.0/stock_putaway_product/

Source : <http://github.com/OCA/stock-logistics-warehouse>

15. Zebra Report Printing - What ? it was there on app store already -

App : https://www.odoo.com/apps/modules/10.0/product_print_zpl_barcode/

Source : <https://github.com/akretion/odoo-usability>

16. Report Designer in Studio - One more rip off but this time from propitiatory solution -

App : <https://www.73lines.com/shop/product/diy-odoo-report-designer-by-73lines-197?category=2>

17. EasyPost - They claimed covering almost all shippers -

App : https://www.odoo.com/apps/modules/10.0/easypost_base/

Source : <http://github.com/oncodna/odoo-delivery>

Feature Ignored

Migration utilities to migrate database by the developer on their own

<https://github.com/odoo/odoo/pull/26548>

Still blind folded ???
